

SANTA SAVINGS BANK

Here's what you need:

Scissors

Cotton

Glue

Construction paper

Empty, round oatmeal carton

Pencil

Rubber bands

Crayons or markers

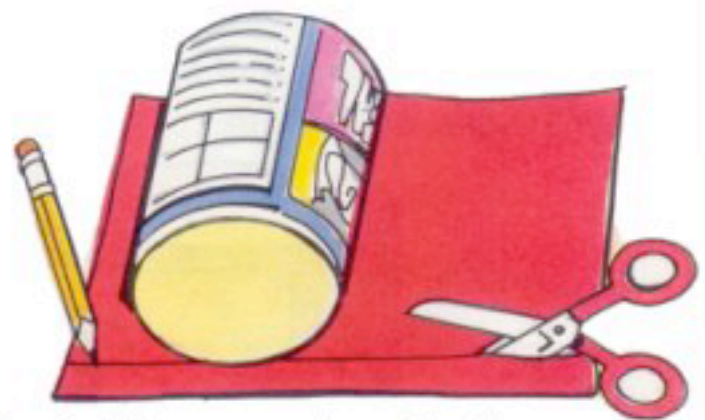

Newspapers

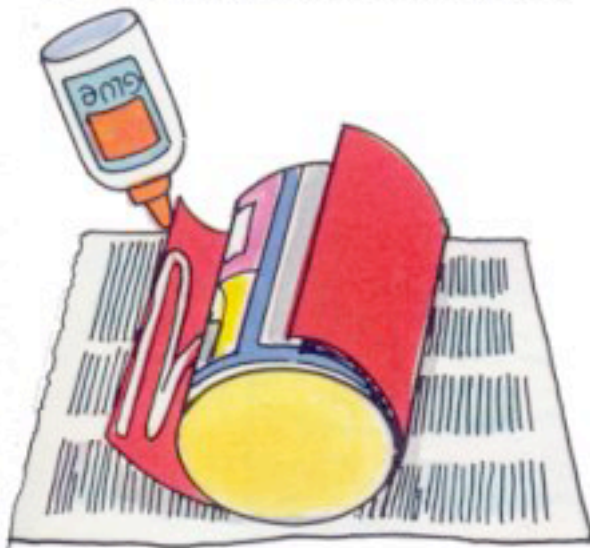

Ruler

Here's what you do:

- 1 Place the empty carton on a piece of red construction paper. Using a ruler and pencil, mark off the height of the carton on the paper. Draw a straight line across the paper at this point.

- 2 Cut the paper along the line you have drawn. The large rectangle you have cut out will be Santa's clothes.
- 3 Place the red rectangle on some old newspapers and cover it with glue, especially on the edges and corners.
- 4 Place the carton on the edge of the paper. Roll the carton along until the paper is completely wrapped around it.

Use rubber bands to hold the paper in place until the glue dries. Wait until the glue is completely dry before adding Santa's face and hair. (Turn the page for more directions.)
